What's New?

If you or anyone you know has a full face mask (with integrated regulator) made by another manufacturer, OCEAN REEF has a new offer!!!

Purchase any new OCEAN REEF full face mask from an authorized dealer or our online store.

Then, fill out the rebate form and send it to us along with your receipt and old full face mask (from another manufacturer).

In return, we will send you \$200, plus the cost of shipping (an additional \$20).

For more information, visit our website and click the banner!

Exciting News

OCEAN REEF Helps Blind Vets SCUBA

In Illinois, Kurt Clifton, of Clifton Diving Ventures had a goal. He wanted to help blind Vietnam Veterans SCUBA dive. It was then that he contacted OCEAN REEF and asked for our help in providing full face masks and underwater communications.

With the Neptune Space full face masks, these Vets were given the fantastic opportunity to dive, assisted, in Cozumel. Kurt provided the divers with the proper training necessary for utilizing the Space mask and then they embarked on a SCUBA vacation to the warm waters of Cozumel.

OCEAN REEF is proud to participate in such an event and honored that we were able to assist in giving these Veterans a new experience!

Thank you to Kurt and Operation Rebound for their support of our troops. Operation Rebound provides permanently disabled troops and veterans the chance to experience sports regardless of their injuries. More information can be found at their website: www.operationrebound.org

Product Information

Neptune H08 Helmet

This helmet is specifically design to be used with the Neptune Space, Raptor and Predator OCEAN REEF masks. It was created to provide impact resistance during adventurous activities where head protection may be needed, such as cave or arctic diving. The GSM G-POWER SL may be incorporated in to the helmet, which makes it a very unique, lightweight, compact, underwater communication and protective piece of equipment.

The helmet patented design provides an ultra snug and stable fit. The lightweight streamlined design and soft foam cushion provides total comfort and freedom of movement. The lycra rash-guard sleeve prevents neck rash for maximum comfort during long sessions. The 2mm thick shatter proof plastic shell combined with a molded soft foam lining provides an ultra lightweight layer of defense.

The Neptune H08 Helmet is made from the most revolutionary high impact resistant plastics, designed to withstand years of exposure from saltwater and direct sunlight. Anyone who becomes unconscious during a dive runs a very real risk of drowning. The

H08 Helmet covers the temple area and ears to help reduce this risk. The H08 Helmet is secured by strong nylon webbing to stay on no matter what you put it through. The helmets soft foam lining is molded from a closed cell non-water absorbent foam and is uniquely shaped for rapid water drainage and maximum comfort. The helmet is also uniquely shaped to have a high cut shell for total peripheral vision and extends down over the temple and ears for extra cover. It is equipped with a protective carrying bag.

- Fits Neptune Space, Raptor and Predator OCEAN REEF masks
- Lightweight, compact and impact resistant
- Non-water absorbent foam
- Uniquely shaped for rapid water drainage and maximum comfort
- High-cut shell for total peripheral vision and extends down over temple and ears for extra protection
- May incorporate GSM G-POWER SL headset
- Neptune Helmet H08 Sizes: M, L, XL, XXL
- Colors: black rubber, silver

Product Highlight

Alpha UWCP (Underwater Cellular Phone)

These days, it seems people will use their cell phones anywhere... so why not underwater? Any Bluetooth capable cellular phone will work with the OCEAN REEF Alpha UWCP. This hardwired communication unit comes complete with buoy and diver flags and allows for communication from over 12,000 miles away! More information may be found on our website.

Featured Dive Site

Diani, Kenya

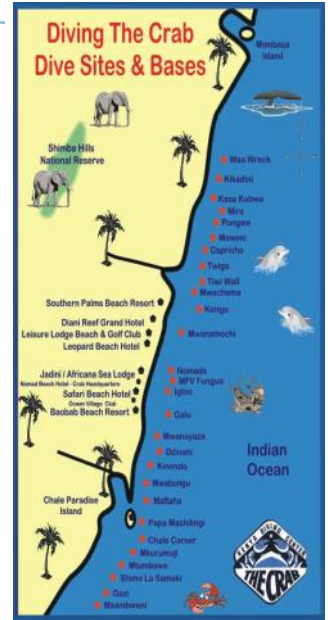

Diani, Kenya

Along the Kenyan coast lies miles of beaches and beautiful tropical waters. Numerous wrecks and underwater life inhabit multiple dive sites open for exploration.

All of these sites are within 500 and 700 meters of the shore, along a barrier reef.

In Diani Beach, “Diving the Crab” offers dive services, including boat transportation, courses, equipment, etc. Voted as one of the Top 100 Dive Centers around the world in 2007, Diving the Crab boasts qualified staff members and reputable dive sites.

For more information, visit the Diving the Crab website: www.divingthecrab.com

In Loving Memory

Lennox Sealey

It is with heavy hearts that we share the passing of a friend and co-worker.

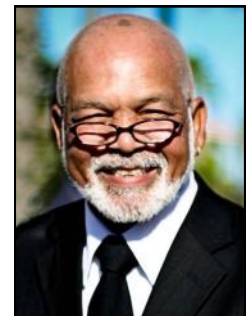

Lennox Chesterfield Sealey passed away on Wednesday November 25, 2009, in Fallbrook, California. He was 65 years old. Lennox was born on September 17, 1944, in Port of

Spain, Trinidad and Tobago to Chesterfield and Stella Sealey.

Lennox worked in management for more than 26 years, most recently at Ocean Reef. He shared a love for music and we would often find him singing along with the radio here at Ocean Reef. He brought laugh-

ter to the workplace every day. That laughter will be missed.

He is survived by his wife of 40 years, Elsie; daughters Marlene and Kathleen; and sons Lennon and Darryl. Numerous siblings and his seven grandchildren. He will be deeply missed by all who knew and loved him.

Did You Know?

We Still Need Your Opinion

We want to know what you think! Please take a few minutes to complete our survey online. We want to know if we’re giving you what YOU want. Creating the Future has progressed over time and evolved into a more user friendly newsletter. However, if there is something else you would like us to cover or discuss, just let us know through this survey!

No personal information required will be shared. We simply would like to better Creating the Future for you, our customers and readers. The survey should only take a couple minutes to complete and all data will be used to make changes in accordance with what YOU are looking for!

Please help us by clicking, or copying and pasting into your browser, the pro-

vided link.

The Creating the Future survey may be accessed via the following:
