

When rough diving leaves you with a smile.

# D10 PRO

## THE LEGEND

During all our years of continuous testing in harsh conditions, we have found that nothing can match the 3,5mm Special Hi-Dense neoprene with SD Toughtex lining that we use for our most outstanding neoprene product, the D10 PRO Drysuit.

Loaded with features this suit has it all. Kevlar reinforced and angled boot, zip armoured dry zipper, SAS Zip cuff system, embossed, PU-reinforced shoulders and double pockets to mention a few.

And all the know-how that we bring from our 25 years experience of diving in the Antarctic & Arctic.

- Anatomical Sculpting – with 3 dimensionally sculpted arms and legs D70 SC provides an anatomical fit designed for human movement.
- Laminated SD Toughtex nylon coating on the 3,5mm special Hi-Dense neoprene.
- Vented hood, HAVS. A separated vented hood fits underneath the warm neck collar. Our exclusive Hood Air Venting System uses one-way valves to vent annoying gas buildup in the hood.
- The HAVS hood features a 7mm double layered protection in critical heat loss areas and glide skin seals for the neck and face.
- Because of the shaping of the D10 PRO, no seams are to be found in the under arm area or in the crotch area, where wrinkling can otherwise cause wearing.
- Warm Neck Valve - We have improved our frequently imitated Warm Neck design with the addition of a double valve to drain the seal area when you surface.
- A Seat that Grips – Polyurethane embossing in the back provides a no-slip grip and integrated abrasion protection.
- Power Pockets - Dual expandable pockets to organize the gear you need.
- Knee Guards - Anatomically shaped, 3-D knee/shin guards for hard-core protection.
- The boots are extended in the rear calf area, which facilitates an easy step in.
- The boots are cut on an angle to minimize ankle and calf stress while finning.
- Each suit is tested by an overpressure check.
- A Waterproof 1000 CORDURA bag is also supplied as standard, which can be carried as a backpack.
- SI-TECH valves, swivelling inlet valve and automatic outlet valve.

## FEATURES AND DETAILS

**ANATOMICAL SCULPTING**  
Pre-bent arms and legs provides a perfect anatomical fit.

**SEAL ARMOUR SYSTEM ZIP OFF CUFF**  
Flexibility to use any mfg's ring system with a heavy layer of seal protection, prevents heat loss.

**MOULDED VELCRO TABS**  
New TPU (eco) tab with moulded velcro hooks, sticks only to the assigned Velcro part.

**SHOULDER ARMOUR**  
Padded wear resistant shoulders - finally a suit that can take as much as you can.

**HEAVY DUTY ZIPPERED COVER**  
The Heavy Duty Zippered Cover provides maximum protection of your dry zipper.

**HIGH VISIBILITY**  
Reflective logo on neck and sleeves.

**CHILL GUARD**  
Keeps body heat in and your undergarments out of the zipper for trouble free operation.

**INCLUDING H1 H.A.V.S HOOD**  
A 5/7mm vented I-span hood is included and fits underneath the warmneck collar. With glide skin seals.

**ANATOMICAL KEVLAR REINFORCED BOOT**  
Angled for the best mix of durability and performance. Moulded Fin Strap Anchor.

**A SEAT THAT GRIPS**  
Polyurethane embossing provides a non-slip grip and abrasion protection.

**WARM NECK VALVE**  
Drains the warm neck when you surface.

**INCLUDING DRY BAG**  
A Waterproof 1000 CORDURA bag is also supplied as standard, which can be carried as a backpack.

**KNEE GUARDS**  
Anatomically shaped, 3-D knee/shin guards for hard-core protection, without compromising comfort and flexibility.

**POWER POCKETS**  
Dual expandable pockets to organize the gear you need.

**TOUGHTEX**  
The best way to armour your suit.

## ACCESSORIES

**H1 Hood 5/10mm Polar Evolved**

- 3-D shaped
- Glideskin seal
- HAVS system
- I-Span superstretch nylon
- Bonded Hi-Quality Nylon thread

**H1 Icehood 2mm**  
A One Size Fits All stretchy "over-hood" that covers all exposed skin. Holes for mask and breathing device can be trimmed to perfection by the user. Also provides excellent protection against Jellyfish in infested waters.

**G1 5mm 5-finger**  
**G1 5mm 3-finger**  
**G1 7mm 3-finger Semidry**

- 3-D shaped
- Glideskin seal
- Pre bent fingers
- Extra long YKK zipper
- Palm Antislip grip
- I-Span superstretch nylon
- Bonded Hi-Quality Nylon thread

**BodyTec**

- 280 gram polyester/spandex
- 5 piece set
- Extended tail
- Storage bag

**WarmTec HD**

- 200g or HD 300g
- Elasticized waist
- Mesh shoulders
- Integrated hood
- Ventilation zippers
- Teflon coated zippers
